

ART982: Art of the Harlem Renaissance

Library Exercise (1) Concept Mapping

- 1) Stated as a sentence or a question, describe the research opportunity you would like to pursue in this course.
- 2) From this statement or question, develop a list of KEYWORDS or KEY PHRASES.
- 3) Now, complete a visual concept map of your research opportunity. Draw links between areas that are related, or that you think might be related. Your map should include a variety of perspectives, for instance: key individuals or groups, types of research methods, methods of analysis, social/cultural conditions, philosophical perspectives, media types, time span, historical events, etc.

Library Exercise (2) Locate Articles

In this exercise, you will use the **keywords** and **key phrases** you developed in the first library exercise – the concept mapping exercise. Pick THREE databases from the list created for you in the Library Course Page for ART554. Use the keywords and phrases to compose searches within these databases and to locate articles related to your topic.

This is a process of discovery. As you read and learn more about your topic, you will likely decide to modify the focus of your topic. This is a normal part of the research process. Give yourself enough time to explore!

Each of your three articles must be from a different database.
